E-MAX® BINGO EQUIPMENT

E-MAX ELITE BINGO CONSOLES

Precise manufacturing and assembly techniques offer the highest quality and most durable bingo equipment in the industry. Our bingo consoles, flashboards and ticket dispensers are designed using the latest state-of-the-art technology. Modern design and an exceptional user experience set Arrow equipment apart from the competition.

E-max Elite Bingo Console

The E-max® Elite™ bingo console is Arrow's top of the line model! This user-friendly, highly sophisticated, and technologically advanced PC-based system offers multimedia and dual video capabilities.

Operation

› Intuitive operation, offering touchscreen, keyboard, or mouse interactivity

› Dell PC with dual video outputs provides proven reliability

› 17" USB touchscreen monitor with positional swing arm

› Multimedia capabilities provide the ability to scroll messages and advertisements on hall monitors

Design

› Available in either a single or double configuration to accommodate our progressive Tear-Opens™ games

› Modular design allows for left-handed or right-handed setup on a single blower

› Reflective back of ball chamber gives players a 360° view of the balls

› Fluorescent red and green acrylic ball chamber panels "glow," even in low light

Performance & Reliability

› Flashboard outputs are thermally protected from static electricity and perform with most flashboards

› Sealed ball switches protect against drink spills and airborne contaminants

› Integrated UPS[1] protects against power surges and prevents crashes

› Manual backup mode in the event of hardware-related or power failure

[1]Uninterrupted power supply

Additional Features

› Magnetic card reader provides multiple security levels and quick logon

› Deskjet printer, built-in color camera, CDRW, modem, and ethernet

› Multiface pattern verification; specifically designed to verify UniMax® and Capitol® bingo paper

› Optional accessories include a random number generator and protective cover

Access™ Flashboards

› Most of our flashboard models are available with 2″ and 8″ numbers as a custom build option

› Our new LED lighting option, Access Flashboards easily outshine the competition.

› Sliding acrylic panels allow for easy service. Recessed handles allow for easy transport and installation.
